

# Activities in Burkburnett During Few Days Just Past

IN BOTH DEVELOPMENT AND SALE OF HOLDINGS HAVE PROVEN CONCLUSIVELY THAT THE EASTERN TREND FROM THE CITY OF BURKBURNETT IS MORE PROMISING THAN EVER DREAMED OF BY THE MOST ENTHUSIASTIC AND THAT THE

## Increased Value of Bridge Head No. 2 Is Sensational

from a standpoint of promise for wonderful production. Study the plat and the latest developments and transfers and you can readily see that it is not occasioned by wild anticipation but by actual and existing production.

The developments simply bear out the contention of the men who make up the management of this company that their holdings were valuable beyond reasonable estimate. That their judgment was good in securing these holdings has been substantiated by the enormous profits offered on original purchase prices and which they have refused.

**They Are Going After Big Game—Why Not Join Men You Can Trust?**

**Sketch of the Trend of the Great Production and Intense Development**

Our holdings are clearly designated on the plat. The one to the left of the river consists of 10 acres 2 1/2 miles from Burkburnett, directly in the trend of the wonderful development and large production east of the town. About 1,700 feet from the wonderful Helen Elizabeth production. A property that has declared large dividends and whose stock of \$100 par value is now listed at about \$400. About 800 feet from the Marine, whose par value of \$100 stock sold at \$1,750 per share, and about the same distance from the Reliable well, estimated at 600 barrels a day. This is where immediate development is planned.

Other holdings in Burkburnett field are quoted on the exchanges as follows:

Fowler Farm Oil Co., first price \$100 a share; since sold at \$15,000—150 for 1.

Hog Creek, par \$100; since \$4,750 has been refused; offering \$5,000 per share for it now.

Metropolitan, par \$100; standing bid \$2,500 per share for it.

The Wichita, Floydada, Wichita Southern, Columbia, Couch-Wing, Vindicator, Citizen, Cald, People's and hundreds of others are selling at 4 to 10 for 1.

The other holding of the company consists of 40 acres in Cotton County, Oklahoma, near the Redwitch company well brought in the other day with indications for a substantial settled production. Offer of twice the purchase price refused for this tract. Directly in the eastern trend of production from Burkburnett.

These Holdings Are Between Our Ten-Acre Tract and Burkburnett in the Eastern Trend of Great Production.

### FIRST BURKBURNETT FIELD PURCHASED

Magnolia Pays \$1,800,000 for Fowler Holdings.

FT. WORTH, Texas, March 27.—(Special.)—Announcement has been made that the Magnolia Petroleum company has purchased the holdings of the Fowler Farm Oil company at Burkburnett for \$1,800,000. This includes all the Fowler's holdings except 100 acres in the Van Cleave tract.

It was the first Fowler well which discovered the Burkburnett pool. This company was capitalized at only \$12,000 and through this sale it brings \$15,000 for every \$100 share.

The Magnolia already has assumed control of the properties.

This appeared on the front page of the Daily Oklahoman, Friday, March 28th.

The large companies realize the worth of the holdings in this particular section of the field. Naturally a persistent propaganda against Burkburnett and the small companies and investors has been carried on to discourage investment by them.

It is not improbable that the Bridge Head No. 2 holdings will equal or even exceed the above in value.

This Holding Adjoins Our Ten-Acre Tract to the Southeast

### A Good Flow of Oil Struck In Shallow Sand By Bridge Head No. 1

Late last Thursday afternoon, the well on Bridge Head No. 1 holding, directly adjoining our ten-acre tract to the southeast, struck a good flow of oil in a shallow sand. It has gas enough to cause it to flow in a steady stream. It will be impossible to give a definite gauge on it until it is cleaned out, but all indications point to this flow being marketed without drilling to a deeper sand. All indications point to the present flow being of a highly satisfactory quantity.

Head No. 2 Being a Thoroughly  
Proven Holding**

### Officers and Directors

J. B. KLEIN, President, Oklahoma City.

President J. B. Klein Iron & Foundry Co., Oklahoma City.

Built up from a modest beginning to one of the largest and most efficient plants of its kind in the whole Southwest, under the personal direction of Mr. Klein.

S. A. MAXWELL, Vice President, Coalgate, Okla.

President Citizens National Bank, Coalgate, Okla.

Known throughout the state as a successful and conservative business man.

H. T. RIDDLE, Secretary-Treasurer, Shawnee, Okla.

Vice president Shawnee National Bank, Shawnee, Okla.

A man recognized as a shrewd but open and above board business man.

The above with the following two gentlemen form the directorate:

J. C. Petree, El Reno, Okla. Successful stockman and capitalist.

Dr. T. F. Clifford, El Reno, Okla. Well known for his business integrity and thorough honesty.

### Reliable and Honest Management

The personnel of the management is made up of men who can refer to any bank or business concern in the communities in which they live for their sound business judgment and absolute honesty. Just the class that can be trusted implicitly for a successful administration of affairs.

**YOU NEVER HAD AN OPPORTUNITY TO JOIN FORCES  
WITH CLEANER MEN OR A CLEANER PROPOSITION**

### Here Is a Chance for You To Do As Well As Others

who have made vast fortunes in the wonder field of Burkburnett with men who have invested all they can conservatively spare from their individual enterprises. With holdings that bid fair to equal any of the largest producers.

Your money will not be devoted to anything but legitimate expenses and development. There is not a salaried officer in the company.

It is the policy of the management to hold the stock of sale down as low as possible in order to pay greater dividends. Developments may force them to increase the value of the shares before the amount of stock offered is disposed of. You can't gain by waiting. What more proof do you want.

## Bridge Head No. 2 Oil Corporation

5 N. Robinson St.

Oklahoma City

Maple 3088

### Cloverleaf Well Reported 1,000 Barrels— About 1,000 Feet From Our 10-Acre Tract Came In a Few Days Ago

This well was reported in at 1,000 barrels but at most conservative estimate it should give 600 barrels settled production. This is about 1,000 feet west of our ten-acre tract. It further emphasizes the greatness of the eastern trend of production from Burkburnett. Every indication points to the fact that our tract will soon be in the very midst of this great wake of production.
